

# Saniclean AC 300

## Sanitizing detergent for air conditioning systems

TDS Saniclean AC 300 - E1R0.0814 Page 1 of 1

**SANICLEAN AC 300** is a detergent, with sanitizing action, for the cleaning and contemporary sanitizing of finned packs and filters in air conditioning systems and refrigeration systems.

Based on quaternary ammonium salts and Triclosan, it sanitizes and deodorizes the air and can be used as an effective adjuvant in the treatment against *Legionella Pneumophila*.

For its physical and chemical properties the product is compatible with steel and plastic materials, but also with light metals such as aluminum and copper.

### Physical and chemical properties

Appearance:	slightly viscous liquid
Colour:	green
Odour:	carachteristic
Density @ 20°C:	~1.020 g/ml
pH @ 20°C (as is):	~9.00

### Dosage and methods of use

**SANICLEAN AC 300** is used in a dilution ratio of 1:3 with water and can be applied both by spraying and dipping. If the product is used in the summer it is not necessary to rinse since condensate generated in the cooling batteries act as water washout; in winter, instead, it is necessary to rinse with potable water.

### Types of packaging

HDPE canister 5 Kg x 4 in carton

HDPE canister 10 Kg

HDPE canister 25 Kg

### Storage

Keep only in original container.
